Ladies and gentlemen. I am Richard Lee, the president of Cloud Computing Association in Taiwan. Thank you for the opportunity to highlight the close relationship between CBA and CCAT. This deep friendship has fostered many exciting and mutually beneficial collaborations between Japan and Taiwan.

For two years, CBA has worked with CCAT to host Cloud Computing Day in Tokyo where we share best practices and technical roadmaps. CCAT intends to continue this fruitful exchange this year.

With the establishment of Open Compute Project Japan and Taiwan, the only two recognized OCP chapters by the OCP Foundation, CCAT have seen collaboration and participation in areas such as the OCP Certification Lab at ITRI, OCP Taiwan Forum, OCP Tokyo Workshop, and many productive exchanges amongst OCP Japan and OCP Taiwan members.

CBA and CCAT relationship are driven by members who collaborate on projects to derive values in both existing and new relationships.

I would like to take this opportunity to recognize some of the key persons at CBA whose

time and efforts made this possible. Mr Sawada-san, Mr Yamaguchi-san. The list is too long for me to go on. Please allow me to say Thank you all.

I would like to conclude by saying that we are doing our best at CCAT and we are counting on you, members of CBA, in building our mutual relationship.

I look forward to work with you on the upcoming events like Cloud Computing Day Tokyo, OCP events, and OpenStack events this year.

Congratulation to CBA for this exciting “CBA Cloud Valentine 2015”. And, thank you for allowing me to share our gratitude in our mutual friendship. And, yes, Happy Valentine.
